

MESSAGE OF EGM OUTCOME

Dear Members,

As you are aware the Club held an Extraordinary General Meeting of members on Thursday 20 December 2018 to consider, and if sought fit, pass resolutions which underpin the immediate need to refurbish and retain the heritage culture of the Club and create capital for the future of the Club.

As you are aware from the notice of meeting the Board called for a special resolution given the importance of this initiative in the future of the Club, requiring a 75% majority of those in attendance and voting.

There was considerable discussion and comment from members for up to two hours both for and against.

The Board was pleased to receive the support of 72% of members present and voting. In respect to those who expressed their reasons against, the Board will consider those reasons before approaching members to perfect and complete an initiative which will underpin the medium and long term of this Club.

The Board wishes all members a merry Christmas and a safe, healthy and successful new year.

Yours Sincerely,

Michael Callanan
President of the RACA
